

## **Welcome to the Interstate Transport Family!**

Thank you for choosing to become a valued customer. We are pleased that you have decided to entrust your transportation needs to us. We look forward to serving you.

Attached, you will find the following documents:

- Interstate Transport Fast Facts
- Interstate Logistics Group Corporate Facts
- Load Link Set Up Form

Copies of our Credit Application, Policies & Procedures Form, W-9, Operating Authority and Insurance Certificate will be furnished upon request.

Again, welcome to Interstate Transport – the logistics industry leader, ranked by *Inc. Magazine* as one of the Fastest Growing Logistics & Transportation Companies in America.

Sincerely,

The Interstate Transport Team

AN INTERSTATE LOGISTICS GROUP COMPANY

**Thank you for relying on Interstate to provide your logistics needs.**

With access to more than 5,500 tractors and 7,300 temperature-controlled trailers, Interstate Transport is one of the largest transportation providers in the United States. In fact, *Transport Topics* Magazine ranked us in the **Top 30 Third-Party Logistics Providers** in the country.

We provide temperature-controlled, time-sensitive, dry and specialized transportation for a number of industries including foodservice, produce, horticulture, big box retailers and emergency management. In addition to managing dedicated lanes and providing surge capacity services, Interstate offers shippers a full suite of professional, logistical services.

- Drop Trailers, power-only and round-trip service
- Routing & Optimization
- POD Scanning and online storage
- EDI Compliant
- Business Intelligence Reporting
- Guaranteed appointment setting

We control more Florida freight than any other shipper and more live goods freight than any other logistics company in the country. Because we move tens of thousands of loads each year, the “big box” stores have come to rely on us – outsourcing much of their logistics needs to Interstate.

Interstate provides our customers with the world’s most advanced Transportation Management System, InMotion Global TMS®.

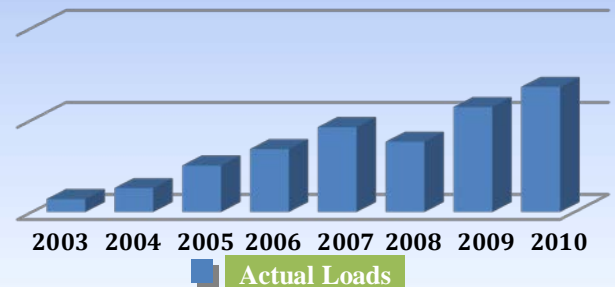

Connected in real-time to our 24-hour Freight Management Center, InMotion Global TMS® provides complete logistics control, shipping support and instant access to additional freight capacity. The system is designed for complex, multi-pickup and delivery loads, as well as providing load optimization, point-to-point routing, load tendering, reporting and Internet load tracking.

Everything we do is accessible over the Internet so you have total situational awareness of every step of the shipping process, 24 hours a day. With Interstate, you will regain control of your shipping process and will be able to track and trace the status of every load we move for you. We even provide PODs over the web, providing on-demand access to your staff.

# Thank you for choosing Interstate

Interstate Logistics Group is comprised of Interstate Transport, Inc., America's premier 3PL offering refrigerated, dry and specialized transportation services, Interstate Dedicated, Inc., a technology-driven, asset-based transportation leader, and InMotion Global, Inc., provider of the leading Transportation Management System, InMotion Global TMS®.

In 2009, Palm Beach Capital, a private equity investment firm that invests in growing, privately-held companies, purchased a significant, but non-controlling, stake in Interstate Transport. Palm Beach Capital added the company to its growing portfolio as a platform for further expansion into the trucking, transportation, and logistics space.

Ranked one of the Fastest Growing Transportation & Logistics Companies in the nation by *Inc.* Magazine.

Top 100 Logistics IT Company  
*Inbound Logistics Magazine* - 2011

# LoadLink

Track and trace your loads 24 hours a day with LoadLink™. Access up-to-the minute, real-time information about your loads, including scheduled pickup times, delivery ETAs, appointment times, purchase order numbers, online proof of delivery documents, and other useful information regarding the status of your loads with Interstate. Utilize custom reports that are tailored to help you maximize your time, save you money, and give you 100% visibility with regard to your shipping and logistics operations.

All information on LoadLink™ is confidential. You see only your loads and you choose which of your team members have access. We can even extend access to third parties you designate, such as sales organizations, merchandisers, and remote offices. You choose your own username and password, which remain confidential.

We designed LoadLink™ with *you* in mind – it assists all members of your supply chain, from your sales force and shipping department, to your customers, store locations, and merchandisers. With LoadLink™, your entire supply chain and distribution effort will become more effective and efficient.

LoadLink™ is easy to use and offers personalized access to all users. Simply provide the information below for each person who will need access. Once your account is setup, users may go to the [Interstate Transport](http://InterstateTransport.com) website to log in.
